

# VERIZON:

## STOP OUTSOURCING GOOD JOBS!

### PUTTING PROFITS OVER PEOPLE

With \$29 billion in profits in five years, lavishly-paid executives plan to contract-out call center and field work to low-pay, non-union contractors while keeping off-shored work overseas.

### MILLIONS FOR EXECUTIVES, OUR JOBS GONE

While top executives made about **\$20,000 per hour** in 2014, Verizon is hell-bent on contracting-out FCSA, FNT, COT, Rep, Warehouse, Field Tech, and other work to non-union, low-pay contractors.

### WORKING TO ELIMINATE JOB SECURITY

With the next contract, the company wants to destroy job security so they can slash thousands of jobs and leave entire regions of potential FiOS customers behind.

**THERE'S A BETTER WAY: STOP CONTRACTING-OUT,  
BRING BACK OUTSOURCED JOBS & BUILD FIOS**
